In the same way the killing of two men Mr.Haytham Hameed Al Badri ,Mr.Louay Asad AlBadri and a child of 8 years old Uns Haytham Hameed Al Badri in Tobchi area Baghdad . All professionally executed in busy shopping areas with security presence, the total number of the reported killings to the MHRG –the Manadaean Human Rights Group stand now at 166 since 2003.

The recent incidences are taking a cyclical pattern which raise the possibility of a programmed cleansing as it is not related to the security situation in Iraq in general .. These incidences caused a lot of fear and disturbance in our communities inside Iraq and our refugees in Syria and other countries.

The Mandaeans are minority community that lived in Iraq for thousands of years. Out of a community of 50,000-60,000 before 2003 less than 5,000 remain inside Iraq. 85% of the community are either refugees or are seeking refuge and are mainly in Syria and Jordan as a result of targeted and

sustained extreme religious hatred and violence.

We ask of you to act to stop this genocide against one of the oldest monotheistic communities in the Middle East. Their only crime is they are different in religion and ethnicity. We ask of the international community to stand up and force the Iraqi government to act to provide security and safety to the Iraqi minorities we the undersigned condemn these serious crimes and demand the following:

- That the IRAQI Government acts immediately to stop the genocide against the Mandaeans and find the criminals and the organizations behind them and bring justice to the victims.
- That the Iraqi government instates a system of protection for the Mandaeans and Other Minorities in Iraq by establishing the minorities' Security Council.
- That the international community intervenes to secure the rights of ethnic and religious minorities according to the UN articles and international laws.
- That the United States, Australia or the European Union should act immediately to accept the 1000 Mandaean refugee families in Syria collectively without delay and resettle them in one place to prevent the demise of this small peaceful community.
- The International community should take serious and active steps to stop the destruction of Mandaean people and their culture and find a durable solution to their desperate situation.

The Mandaeans are in danger of extinction in their homeland. The international community must stand up and save the Mandaeans of Iraq. We ask you all to help stop these atrocities and to bring peace and security to The Iraqi Mandaeans.
