### **Congratulation**

The recently established Iraqi Turkmen Human Rights Organizations Assembly in Europe (**THOA-Eu**) congratulates the 4<sup>th</sup> congress of the Turkmen Council for the election of council committee members and the elected decision-making council.

We genuinely believe that a huge hard work is forthcoming for the new managing council being over left by the preceding council.

- Construction of the Turkmen Council and the Iraqi Turkmen Front on the democratic and transparency bases.  
Constructing effective sections of both council and Front and feeding them with experienced, active and hard working personnel.
- Establishment of an effective communication and discussion of the problems of the Turkmen in all the regions of Turkmeneli is going to strengthen the sense of unity.
- Establishing an effective solidarity with the Turkmen of Talafar against the attacks which they were exposed.
- Effective solidarity with the Turkmen of Tisin, Mandali, Sallamiyya sectors and the demolished Turkmen villages to return their confiscated lands and to reconstruct their villages.
- Reconstruction of the preceding ineffective Turkmen media system i.e.:
  - Establishing a Turkmeneli Press Agency to document the events, which took place in the Turkmeneli region, and to translate them in different language and merge them with the international press agencies.
  - Establishment of an effective, comprehensive Turkmen newspaper which can be read by all the Iraqi people fed by the skilled and experienced personals.
  - Establishment of Turkmeneli FM radio to reach all the Turkmeneli regions.
  - Participation of all Turkmeneli regions in the Turkmeneli television.

- Establishment of an effective relation with the Iraqi Turkmen Human rights and other Turkmen organizations out of Iraq.
- It is clearly proved that the occupation troops are ignoring the Turkmen of Iraq and are violating their safety demands. Therefore, all type of civil actions (Protests, boycotts, strikes, demonstrations .... Etc) should be taken to force them change their attitudes.
